

**The International Movie Database (IMDB)**, the largest and most prestigious movie & TV database has added "**Pay The Price**" to its list.

After several months, the movie has been added along with bios of the cast and crew. Here's where all Film/TV executives, producers, agents, actors, attorneys, etc. go to find out what is going on in the industry.

For instance, if someone wants to see a list of each of Spike Lee's films, or who starred in "*She's Gotta Have It*", one could go to [www.imdb.com](http://www.imdb.com) and type "**Spike Lee**" in the search category.

Now any one in the world can type either "Darryl D. Lassiter" or "Pay The Price" or any cast or crewmember from the movie into the search category and find out what's going on with each person.

So, pass it along to your friends that the crew and cast are now a part of the world's largest movie/TV database. ----- [www.imdb.com](http://www.imdb.com).
